HEMP • HEALTH • WELLNESS

Dear little Charlotte,

It's taken me quite a time to order my thoughts and to find the right words.

People around the world have written the most beautiful tributes to you, and the outpouring of love for you and your family has created a global vibration of connection.

Charlotte you mean so much, to so many. To me, you will always be my hero.

If not for you Charlotte, and your Mum, and those Stanley Brothers, I don't know where I'd be. I love you all. So deeply. So absolutely.

'A small positive vibration can change the entire cosmos' - I think of this when I think of you.

Thank you for everything you have done, darling.

Our hearts will remain with you, always.
